Re: 2017 Price Increases

All of our suppliers have announced price increase through their manufacturers for the upcoming 2017 year to the extent of approximately 20%. In addition, labor is going on an upward trend quarterly and as many of you are aware, there is a shortage of manpower here in the Las Vegas Valley.

That being said, we are providing notice beforehand that we will need to raise our costs for the upcoming year in order to maintain the level of quality and service we provide to our customers and meet the demands of the cost increases we face as a company.

We appreciate the opportunity to work with you on your projects and the relationships we have built over time.

Sincerely,

Victor Garica, President
