Re: Material Increases

Dear Customer,

Several drywall material suppliers have announced drywall materials will increase 20% in January 2017. We will not have definite pricing until sometime in December.

In addition, we are anticipating labor cost increases due to the shortage of workers in the valley.

We have also been notified that Sherwin Williams will be increasing their paint prices. We are told, they are still in negotiations with most builders. These prices are also not available at this time.

We are sending out these letters to help our builders plan for the upcoming increase. Please review the attached letters.

Please feel free to contact me with any questions or concerns.

Sincerely,

Mark Hutchins  
President
