

Dec 2, 2016

To our valued dealers,

After evaluating the recent uncertainty in the steel markets, it will be necessary to increase our prices for all galvanized metal products up to 10%, effective Monday, January 2, 2017.

Any specific job quotes in the system will be honored at the quoted price, but must be referenced on the purchase order to assure the proper price is applied. Orders must be placed, scheduled for shipment or picked up by the end of the business day on Friday, December 30, 2016, in order to receive current prices.

Should we be unable to fulfill your order due to supply/inventory issues past the December 30th date, we will honor the old price.

We appreciate your understanding and thank you for your continued business and support.

Sincerely,

J. Scott Young

VP Sales and Marketing
